

Summit Fertilizers - Big Bag Recovery

Summit Fertilizers has partnered with Big Bag Recovery, which enables bulka-bags to be dropped off for recycling collection at all Summit Fertilizer depots.

What is 'Big Bag Recovery'?

Big Bag Recovery is designed to assist in the recycling of large plastic packing bags, such as bulka-bags.

Recycling ensures that these products do not enter the waste stream or land fill.

Recycled products range from shipping pallets, plastic furniture and garden pots and ensures an end of life product from these single use bags.

What do you need to do?

Summit Fertilizers has partnered with Big Bag Recovery, this enables used bulka bags to be returned for recycling at all Summit Fertilizer Depots.

All Summit Fertilizer Bulka Bags are single use bags, we recommend that they are not reused once emptied.

When you purchase Summit Fertilizers in a bulka bag. You will be able to return your empty bags for recycling.

Empty bags can be returned to all Summit Fertilizers depots.
